INTRODUCTION

The main destination of this trip, Hunza region, is probably most famous for the longevity of its people, due to their simplicity and natural diet, along with the unpolluted fresh mountain air. The Tibetan traders referred to the beauty of this paradise the "Shangri-La". In this northern part of Pakistan lies a mountainous region containing some of the world's most incredible scenery, a fascinating mixture of different ethnic population and some magnificent landscapes.

Hunza is on the ancient trading route to Kashgar in the Chinese province of Xinjiang. The construction of the Karakoram Highway to link Pakistan and China provides a unique experience to traveller, as it opens up a spectacular overland route that passes through some of Pakistan's most beautiful mountain areas.

Let us embark on this mysterious adventure together.

THINGS TO KNOW BEFORE COMING TO PAKISTAN:

1. The weather in the mountainous region is unpredictable. We may have to meet with bad weather, hence face unexpected situations such as flight cancellation or road closure. In this case, we will have to adapt the itinerary/ accommodation on the spot.
2. This tour is only suitable for adult who is into adventure. Tour members also need to have strong physical fitness, no underlying diseases (asthma, high blood pressure, heart disease) and enough equipment to withstand the cold temperature, strong wind and high altitude.

 - a. On the 3rd, 4th and 5th days, we will hike from Tattoo village to Fairy Meadow [3300m] (one-way 3 hours), Fairy Meadow to Beyer Camp [3550m] (round trip, total 6 hours), and from Fairy Meadow back to Tattoo village (one-way 3 hours).
 - b. Alternatively, you can choose to ride a horse instead of hiking and hire porters to carry the daypack.
4. Good sturdy shoes and weather-proof warm jacket are must bring items.
5. The remote regions of Northern Pakistan have very limited facilities and power outages are frequent. We will arrange comfortable accommodation for everyone to ensure basic hygiene and safety.
6. Estimated temperature during time of visit:
