## NORTHERN LIGHTS CHASING TOUR

Northern Finland, northern Sweden and northern Norway are collectively known as Nordic Lapland (LAPLAND). Everyone should be familiar with this name, right?

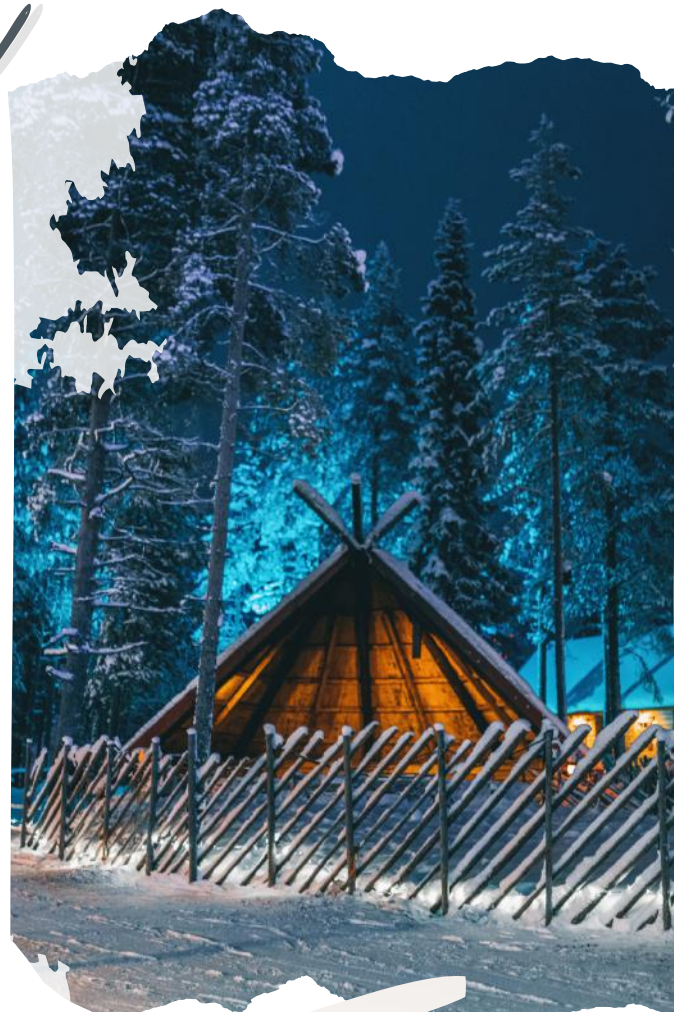

This area is located in the Arctic Circle, you can enjoy the unique polar scenery and indigenous people's customs, and you can also meet the magnificent Northern Lights.

Lapland enters winter in October every year, and spring does not start until May of the following year, and the whole winter lasts for 8 months.

Looking around here, there are almost all forests and rivers, but in winter these are all covered with white snow, the ice is pure and pure, and the horizon is endless, like a fairyland outside the world.

Around the winter solstice, people can feel the polar night and see the 24-hour starlight.

Come along with us as we explore the stunning beauty of Lapland. We will take you on a journey through snow-covered forests, frozen rivers, and charming villages.
